Sponsorship Form

People with primary immunodeficiencies are unable to fight off infections and if they are not diagnosed in time, serious illness and organ damage, sometimes life-threatening, can occur. It is estimated that in the UK thousands go undiagnosed.
The PiA exists to raise awareness of the conditions, to provide help to affected individuals and to support research.

Sponsor's name	Sponsor's address	Amount per unit	Total	Date paid
		Grand total		

It is estimated that over 6000 people in the UK have a serious inherited immune disorder. THANK YOU for your generous support. Your donation will help improve diagnosis and treatment, support patients and fund research into a cure.
